A Key Macro is a computer program, mostly used in video games, that acts as a keyboard macro recorder. Keymacro can easily be set up to copy the keys for a song from a CD to your computer, or if you are a musician and just want to record your fingers hitting the key of the keyboard. This software does it all! With Keymacro, you can record any sequence of keys on your keyboard and then play them back. It can even record custom key sequences, including keystrokes performed during a game, such as entering level numbers, or using cheats. Keymacro is a quick and easy way to record any key combinations. You can copy and paste those key combinations into other programs, such as email, or music composition software. What we can do: We can import any song you have on a CD or any other media file and have Keymacro play the songs for you, so you can copy any keystrokes you make while listening to the song. You can use Keymacro to copy the keys of a song into a program you are using, including a media player, a game or music composition software. Keymacro can be used to play the recordings you create, or you can save the keys of a song as a text file and play the song through any media player that allows the song to be imported. Keymacro is an easy to use software that can be used by anyone, any level, or for any purpose. * Many handy keyboard shortcuts are supported, such as the Windows, Home, and End keys, as well as the CTRL, ALT, and SHIFT keys. * Automatic recording pauses if you stop playing a song. * After recording, you can play it back at any time. * Record music and other sequences of keyboard actions with ease. * Record the keys of a song, track or any other sequence of keyboard actions. * Easy to use, you can record any song with ease. * Import any song from a CD or any other media file, and automatically play it. * Automatically play the song again after you stopped recording. * Record any song you like, even from your CD collection. * Import any song from a CD or any other media file. * Record any song you like, even from your CD collection. * Play the recordings you have created at any time. * Export the recordings you have created to a text file http://www.snt-zorka.ru/index.php?option=com_kide&view=kide&tmpl=component
