All models can be used for commercial purposes only by .Q: vim syntax highlighting and file name How can I get vim to highlight the file name and file extension when I go to the first line of a file? I've looked at different vimrc files and I just can't seem to figure out how to do it. A: :help highlight-syntax You can also use the :highlight command, but there is more info in the help. :help file-types If you have some other file types you want it to highlight, you might want
