## CA Anti-Spyware 2009 With Key For PC

CA Anti-Spyware 2009 Serial Key is a software application that comes packed with scanning and cleaning capabilities for helping you detect and get rid of spyware, adware, cookies, or other suspicious data that may compromise your computer's security. It boasts a clean and intuitive GUI that gives users the possibility to perform a quick scan or a custom one. The first scanning method looks for potential items in the common location on your computer, while the second one enables you to select the files and folders to scan for spyware. At the end of the task, you can view the number of detected spyware, and delete the suspicious items, move them to quarantine, or add files to an exclusion list to ignore them from future scans. Other important features worth mentioning allow users to schedule a scanning operation by specifying a start and end time. CA Anti-Spyware 2009 Torrent Download keeps a log which gives details about the deleted or quarantined items, and you can limit the size of the log and save it to a plain text file. Plus, you can view statistics about the number of scanned files and quarantined spyware. During our testing we have noticed that the program carries out the scanning process quickly and without errors throughout the entire process. All things considered, CA Anti-Spyware 2009 offers an intuitive working environment and useful features for helping you keep your computer clean and safe from potential web-based threats. CA Anti-Spyware 2009 Overview The most important feature of the CA Anti-Spyware 2009 is the clean and intuitive GUI. This allows you to perform a quick scan or a custom one. The first scanning method looks for potential items in the common location on your computer, while the second one enables you to select the files and folders to scan for spyware. You can choose the type of scan to be done, the start and end time of the task, and whether to scan all user accounts or only the one you are using at that time. The GUI supports various scan types which include: Quick Scan - It lets you perform a quick scan of your computer to find potential spyware, adware, cookies, or other suspicious data that may compromise your computer's security. Custom Scan - Allows you to choose the files and folders to scan for spyware. Advanced Scan - This scan type enables you to specify the files and folders that you want to be scanned. Exclusions Scan - When using the Advanced

## CA Anti-Spyware 2009 Crack + Free
