Lesson 9-8: Saving Pictures and Files to Disk (Downloading) ... Capacity: Much less than a PC, from 8 MB to 64 MB of disk space. This is mainly because most people don't use all the memory the disk has to offer, and some will probably prefer to use a flash drive (USB) or an external drive (CD-ROM). Most of us use an external USB drive (such as a flash drive) to store pictures and files. Since this is not as common (compared to a PC), you probably don't realize it, but the size of the external storage media is usually larger than your computer.
