What's New In IPod2PC?

Do you have some spare time today? Then you will love to use this tool that helps you in ipod transfer. iPod2PC is a handy software application that helps you transfer files from your computer to your iPod music library. This application uses the built-in iTunes library for saving and transferring files. Key Features: iPod2PC is designed with ease of use in mind. Therefore, users can transfer files from the iPod to computer in a simple, fast, and hassle-free way. If you don't want to use iTunes, the software works perfectly without the media player. The program supports both 32-bit and 64-bit architectures. The application is portable, and you can enjoy transferring files from your iPod to iTunes library on any Windows XP/Windows Vista/Windows 7 machine. With iPod2PC, you can work on the transfer in the background while performing your other tasks. iPod2PC also gives you the possibility to check the status of your copy and monitor the progress of the operation, so you can wait until it's finished. The software is multi-threaded to handle multiple copies at the same time. If you have a low-capacity iPod device, you can transfer data with maximum efficiency by using multiple threads. iPod2PC is a plug and play application, which means that you don't have to worry about removing your iPod from your computer, or plugging it in the first time. iPod2PC transfers the files from iPod to iTunes library in a quick and easy way. iPod2PC supports all types of digital music files, including MP3, AIFF, AAC, and WAV, and adds the files in your iTunes library. iPod2PC can detect the songs that are missing on your iPod. With a simple design, it's easy to use. iPod2PC keeps a log for every file that is transferred, so you can easily record information about the file. iPod2PC also provides IPOD browser functionality to transfer the files from your computer. How to transfer the files from iPod to computer Step #1: Download and install iPod2PC. Step #2: Connect your iPod to the computer via USB cable. Step #3: Open the application and select the "Transfer Music from iPod to Library" option. If you want to transfer the songs
