All the information and resources about Naruto Shippuden - Ultimate.[Unreal Engine 4 and Microsoft Store] - Windows Mobile I remember back in 1996 when I started programming with Visual Basic 3 and MySql there was a company called MYSOFT. The engine was OpenGL and was much more powerful than Direct3D at the time. The engine was based on DirectX, so it was a beautiful combination. Later the engine was renamed to Unreal Engine and now the engine has evolved to become a strong competitor for D3D. I think Microsoft and Xbox One is a good platform for Unreal Engine as they can now release games running on Windows OS and Xbox One via Microsoft Store. It is a good chance for indie developers to get exposure to the Windows Store. I started programming in Visual Basic 3 and MySql there was a company called MYSOFT.
