Description Positive Atmosphere The Temperature.moisture ceiling provides precise humidity monitoring throughout the whole plant. The intelligent hygrometer measures the evaporation of moisture from the evaporation bowl, factors in ambient temperature, and adjusts the relative humidity accordingly. As a result, your plant is maintained at its ideal humidity, which creates a unique positive atmosphere. The Control. The Light Control feature helps maintain the best light quality for every plant. Adjust the light by creating multiple working and storage zones. The Quests. The Quest option allows you to start a new activity with the tap of a button. Perform experiments, keep yourself informed, and be rewarded for your efforts. The Collaboration. All plants benefit from sharing their knowledge with the Plant 3da54e8ca3
