

I'm thinking of getting PES 2010 this year. Like I said, FIFA 10 is way ahead of PES and the pes demo looked terrible, but strangely enough, I've been like that lately. realism and features. One thing Konami can definitely improve. It's animation and movement. In the demo, when you play with a "friend", he is much slower than if he was playing in one-on-one mode. It might not be that bad already, but it could become a problem in FIFA and it's really worrisome. Also, if you are playing with another player, it gives you the feeling that you are playing real football. Unfortunately, this does not work in the demo version. I hope this won't be a problem in the full game, but I can't wait for it to happen.
