research program undertaken by Autodesk Revit LT Team. The theme of this research program was to better align the features of Autodesk Revit LT with user requirements.

The feedback we received during this research helped us understand the pain points we'd solved and the problems we'd solved. You can familiarize yourself with the new features and functionality of Autodesk Revit LT 2011. We are excited about what lies ahead with Autodesk Revit LT 2011 and we hope you are too!

This architectural capability is also available in Autodesk Revit LT 2012. Autodesk Revit LT 2011
