Q: Manually select tab and switch to it I am automating on a web application with Selenium using Java. I have a count of URL pages (one after another) that I need to always stay on, and that does not include the homepage, so I need to find some way to manually select an existing tab to switch to. Can't be done using Actions. Googling around didn't really help either. Any suggestions?

A: I have used JSS (Java Scripting Suite) through Selenium quite a bit. You can access JSS simply by executing it on your browser: JSS\jssor\api-reference\jssor.open(count); If that does not work, check that you are executing the correct JSS, and JSSor count is a number. This works with most browsers. To find the tab, try getting the selected element: XPath: jssor_getSelectedElement. Method 2

Alternatively, in a webbrowser, you can use the following to get the current
