—FIFA 22 introduces "HyperMotion Technology," which uses motion capture data collected from 22 real-life players playing a complete, high-intensity football match in motion capture suits. The data collected from player movements, tackles, aerial duels and on-ball actions is used to power FIFA 22 gameplay. Additional player models and animations — For FIFA 22, EA Sports introduced 52 additional player models and over 120 unique animations—a combination of proprietary EA MotionTraxx workflows and the latest in facial capture technology. These designs enable player likeness and animation across four key factors – skin, motion, hair and gait. — For FIFA 22, EA Sports introduced 52 additional player models and over 120 unique animations—a combination of proprietary EA MotionTraxx workflows and the latest in facial capture technology.
