When the file is downloaded, click to open it.Q: Excel vba code to fill down a blank I am trying to enter data into a spreadsheet and select data from another spreadsheet. The problem I am having is that I need to append a few more columns from the second spreadsheet to the first spreadsheet. I know that I need to use ='C:\Users\xxxxx\Desktop\pivot from Sheet2.xlsx'!D5 when I run the code but am having problems. Can someone give me some help with this so I can run the program? Thanks 'This is the VBA code that is called everytime data is entered into the database Sub AddData() Dim cell As Range 'Loop through worksheets For Each cell In Sheets("Sheet1").Range("A1:E100").Cells 'Loop through active worksheets For Each cell In Sheets("Sheet1").UsedRange If cell.Value "" Then
