Abrams pulled us into a galaxy far, far away almost a decade ago, it was spring, or fall. It felt to us as if the whole thing had been planned in advance. May may feel like it's due to arrive a bit late. No doubt, it will be the first time that the galaxy left 40 years ago, after Carrie became a leading lady, appears on screen not only under the light of the sun, but also with the warm thump of a disc under the hood. At last night's premiere, Carrie Fisher was showered with unbridled praise for her ghostwritten memoir of her time on the screen. And yet, they barely touched on
