## CompanionLink Professional Crack + With Key Free

More than 20 years of IT experience in the field of creating software for the rapid synchronization of desktop and mobile data. CompanionLink Professional is a reliable application designed to facilitate the data synchronization between your preferred organizer program and a mobile phone. Alternatively, the program supports data transfer between various accounts, such as Google, Exchange or Office 365 Cloud. Quickly set up the data transfer method CompanionLink Professional allows you to instantly synchronize calendars or contacts from the specified accounts to your smartphone. The program supports PC applications or Web databases including ACT!, GoldMine (with dBase, SQL or Firebird), Google GroupWise, Highrise, Infusionsoft, IBM Lotus Notes or Microsoft Outlook. Other transfer sources are Palm Desktop, Salesforce, SugarCRM, Time & Chaos and Zoho. The synchronization is performed only in one direction, from one of the above-mentioned instances to a mobile device or another service. The supported destinations include Android phones, Apple devices, BlackBerry, webOS devices, Palm Handheld, Windows Phones and various accounts. You can transfer data to DejaCloud, Google, Lotus Notes, Microsoft Outlook, Palm Desktop, Outlook.com, Exchange or Office 365 Cloud. Change configuration details and start the transfer CompanionLink Professional allows you to select the transfer method, in case you send data to mobile devices. You can choose to perform the sync through DejaCloud, direct USB connection, via Google, DejaConnect USB, Local Wi-Fi or Bluetooth. Be sure to enter the login credentials for the accounts, services or databases you are using, if required, for the transfer to be quickly performed. You can create several sync profiles, in order to facilitate future data transfers. Moreover, you can easily enable the two-way synchronization. Latest Available Version Version 8.5.1 Build 68, Release 607 List of changes: - Device and project management during the process of synchronization: - Powerbook: Battery level comparison - Renamed a couple of fields Version 8.4.2 Build 36, Release 493 Changes: - Improved sync frequency switching Version 8.3.1 Build 24, Release 456 Changes: - Added new Sync History window. This window provides complete information about all changes that occurred during the current sync session. - Improved synchronization behavior Changes: - Error handling - Improvements of the option to reset in a case of an error.

### What's New In?

Are you tired of leaving your smartphone in stand-by mode or in off-mode and the data left waiting for you on the phone?
