You need to put the file. When you download a file from the web with WinRAR, you have to download and unzip the content of the folder.rar. In order to properly download a file from the web with WinRAR you have to put the folder in the name of the website that you are going to download.rar. If you are having trouble downloading files with WinRAR, can solve this by right-clicking the names of the folder or files you want to download, and selecting the "Add to WinRAR Archive" option. This will add all of the files inside of the folder to the archive. Or
