Inspired by the game engine of FIFA 17, the new game engine delivers a completely redesigned "lean-back" experience that enables players to enjoy the game from any angle. Players can also view the game from the perspective of all 22 players on the field, thus creating a first of its kind, fully interactive coaching experience. For the first time ever, with the new "Player Vision," any player at any time, in any game mode, can make a call on a teammate's positioning and decision-making, or ability to run at the defense with the ball, improving the connection between players and coaches. Additional gameplay innovations include the "Fix Defect" technology, a new precision passing mechanic, "PowerTruck," a revamp of the goalkeeper system, and the new "Career Maker" mode which allows players to create their own player from the action in FIFA 18. A new "My Career" system enables players to record their own skill sessions and then create personalized gameplay and team editing that can be used to create "My Ultimate Team" or My TOTS (Team of the Season) in custom mode. For the first time, the My TOTS system also allows players to edit the kit design of their team, choosing and customizing the number of players on the field, the color of the players' boots, team name and much more. The Kit Designer tool can be accessed via the "My Team" menu, and the updated "My Points" and "Training" modes for custom mode also provide for the richest toolset ever to create and coach any soccer player in history. Key Highlights Improved Player Intelligence All 22 players in the field will react to the game situations on the pitch, improving the quality and realism of gameplay. Customized Player Intelligence Create your ultimate team from the action in FIFA 18. Add as many players as you like and customize the way they play, from the depth of their passing range to their sprint speed and air power. New Lean-Back Experience Better-defined strike zones improve the quality of goalscoring. Players can lean on their defenders, cut inside and create more chances from out wide. New Player Vision New "Player Vision" gives a deeper and more visual coaching experience, enabling players at any time to call out decisions and abilities. The new "Player Vision" also provides new options for

FIFA is the most popular football video game franchise in the world, spanning a variety of gameplay platforms and devices since its launch in September 1992. FIFA is built around the free-flowing game of football, rather than the factory-driven approach employed in most other game franchises. The player has an open-ended environment to play, where their actions and decisions impact the course of the game with an ever-changing virtual universe. As football becomes the most popular sport in the world, the sport of football is constantly evolving and FIFA reflects that evolution: Since 1993, the FIFA World Player Series has evolved from a single annual tournament to a franchise spanning more than 20 events on six continents and representing the official FIFA Club World Cup™. The FIFA

Women's World Cup™, played every four years, is the most successful international women's sporting event, with FIFA's franchise having been present in every tournament. FIFA has also evolved with the game itself, through each season introducing a number of radical changes to the game to keep the game relevant. FIFA also includes single-player challenges and online-multiplayer modes, taking the game to new audiences around the world. What is FIFA Ultimate Team™? FIFA Ultimate Team (FUT) is the most complete football club management tool ever created. With a robust roster update structure, FUT rewards in-depth scouting and provides detailed statistics that allow for a great ownership experience. FUT also includes a comprehensive trade market, unique player attributes, and dynamic gameplay. Players and clubs can also be uploaded from your game FIFA series to FUT. FUT Ultimate Draft™ allows you to create a custom team on the fly and personalise club and player attributes on the fly. You can assemble the best players from around the world into your

squad and face teams from all around the world in one-on-one or tournament-style matches. FUT Ultimate Challenges™ offer a single-player experience that opens up to multiple mode, that now include online social challenges. Earn rewards and reach the top of the Leaderboards in FIFA Ultimate Team Seasons and FIFA Ultimate Team Seasons Leagues. What is FIFA Ultimate Matches™? FIFA Ultimate Matches (FUTM) is the all-new, single player cup mode that allows you to create, manage and play against a squad of players within your game FIFA series. FUTM has been designed from the ground up to provide the perfect experience for your cup matches; you can now play against friends and random
