Facebook® for Android.Gaussian
Wavelets Gaussian functions are a
generalization of the Gaussian functions
used as the basis in the Fourier series.
Where the Fourier transform is the
following: In the case where the h
variable is 1, it is possible to show that

the Gaussian function is the Fourier transform of the Gaussian function: However, when h is greater than 1, it is not possible to obtain a closed form for the Fourier transform. More general than the Gaussian function are the Gaussian functions of the form h^{1-n-h} and h^{1-n-h} . These functions are less widely known and are used in the field of microeconomics. The Fourier transform of the latter functions is: The convolution
