Flying Soul is a new kind of flying game, with a completely different proposal. It is a game focused on fun as a main objective, easy and accessible for everyone. The game is a competitive game where you and your Spaceship (your ship) have to move between the targets, collect stars and be the one with the minimum time, or the best rank when you land between the targets. The objective is not to kill or defeat enemies but to do the minimum time to complete the level while finding targets, avoid crashes and a lot more. All your actions will be recorded on leaderboards for players to see when they search for race games on Steam. The game itself records player's actions. All the targets are placed in different maps and stars will mark the target after you complete. The game is not easy, even at the beginning players will feel confused, but soon they will be able to grasp the game flow. The first level will be really simple to show the main flow and mechanics of the game. The keys of the game are the space bar, the up arrow, left / right arrows, space bar to activate speed boost / slow down, up arrow to go up and down. Flying Soul is an exciting flying game, where the journey comes before the landing! DIFFICULTY LYFE™ ===== Difficulty mode will be assigned based on your ranking when you finish a race. The higher your ranking will be the more difficult mode you will be getting. EARLY ACCESS TOKEN PREMIUM DOWNLOAD The U.S. Army has issued a "White House order" to troops at Fort Bragg, N.C., two weeks before Election Day, directing them to "stand their ground" and shoot members of law-enforcement agencies, whom they identify as "aggressors," even if the officials are merely investigating or observing suspicious activity. The order, signed by Chief Warrant Officer John A. Johnson, is noteworthy for its seemingly widespread and open-ended application. It says: "Beginning at 0001 hours on 11 November 2012 and ending at 2300 hours on 11 November 2012, all Soldiers, contractors, and Department of the Army Civilians assigned to Fort Bragg, North Carolina are hereby ordered to respond to any order, lawful order, or lawful command of a person of superior rank and authority to their immediate commander who are acting in their official capacity and within their delegated authority to detain, arrest,

Neon Drive is a slick retro-futuristic arcade game that will make your brain melt. You've been warned. In loving memory of my Uncle, I offer you these 4 free apps. 2 of them are paid applications and 2 of them are freebies. Please choose a quote and when the Apple Music feed opens, select it as your start song. If you want to know more about me, visit my website, my SoundCloud account, or more info about these apps or me, visit my Google+ account (it also has many more apps, info, and lots of freebies). Instructions: 1. Take the video to Apple Music 2. When you're redirected to Apple Music, click on "Music" in the navigation bar 3. Choose your song as the start song 4. Enjoy my post Today I take you to enjoy one of the best games I have ever played. It's super relaxing, and yet it's a fighting game at heart. It's also a bit on the tougher side, so if you are weak against hitting your opponent when they are in the air, move on and find another one. You should also play this on high graphics, I recommend it. Enjoy. I've made a video and I've created a series so I can show you what I think are the best games in every genre, and share what I love about them. Join me on this journey of love, this is just the start. All screenshots were taken by me. This post was inspired by something, but I can't really remember what it is... I'm going to make a public service announcement. You are not alone. Go to the Facebook wall of E.J. Mayers and say hi...he might be your friend. This are the views I see as I look out my window while I'm working in my apartment. Flush mounted mirrors can be placed on the wall or on the countertop, leaving enough room for your bathroom amenities. Remarkably versatile, they will match your bathroom décor and layout. If your bathroom has a wet or dry location, choose a bathroom mirror with a special power supply. This ensures proper functionality during any electrical power blackout. It can be used in any bathroom from the largest bathroom to a small bathroom with tiny space. A flush mounted bathroom mirror has the ability to close the space where your bathroom mirror is located. This is a convenient way to enhance your bathroom space. You can also add a grab rail to your bathroom to prevent accident risks. Most styles of

What's new:

I've already mentioned the previous DLC Trainz: Blitz Edition (weirdly, this time it wasn't any of the train business) and it's about time we looked at the DLC that will be available from the 19th October onwards. Originally, this was to be called the 'Summer' season, but let's just lump this in with the 'Spring' season as it covers a cool 10 weeks. Included in this series of add-ons are four types of DLC, all in a similar vein to what we've seen in the past. We'll start with the four types of DLC, then the DLC available for Railway Simulator, and finally we'll look at the extras that'll be included with the "First Builders of Europe" DLC. Please allow me the opportunity to mention that all of this should be available to use in Railway Simulator. Big Haul Railway There are four available because there were four types of DLC in the first Spring/Summer season. Each one of these DLC volumes covers approximately one month. Vol. 3: Prague to Budapest Manufacturer: Grzegorz Mantuszewski Price: £1.99 The Big Haul DLC covers over a month and covers the period from March to April. Making of these extra trains on the Czech Republic is interesting; apparently, German forces bombed the Czech railways during World War Two and so much work was done that the Czech People were eventually super-inundated with new trains! Despite the bombing, the Germans were careful to leave the railways, and the Czechs even salvaged locomotives from the bombed tracks. Since the Czech Republic border is only 50 kilometers from the Hungarian border, too (at some places, much closer) it is impossible to not build a bridge over the border. Trains available for you to take control of: Prague to Teplice (17 trains): Kuřim to Teplice (9 trains): Teplice to Trnava (17 trains): Prague to České Budějovice (19 trains): Prague to Kralupy nad Vltavou (16 trains): Prague to Lukov (19 trains): Prague to Nový Ji
