Nevertheless, I always receive the message: send_email: Maximum execution time of 30 seconds exceeded in /home/marnicol/domains/marnicol.nl/public_html/contact.php on line 8 Line 8 is the: mail($email, "Info: ".$email_message, $headers); I would want to know if there are any post variables available for the mail function like the 'post_max_size' variable is available for the html form. A: The mail function can take a parameter for an additional message, this should make the function work. A: You'll want to set PostMaxSize to be at least as large as your maximum email message. Also make sure to set your Apache setting (ServerTimeOut) to at least the maximum amount of time that the script will take to run (in seconds) You can

configure these on your Apache server using a2dismod 2017–18 Tallahassee Tennis Challenger The 2017–18 Tallahassee Tennis Challenger was a professional tennis tournament played on hard courts.
